

Ekicontrol coil processing line type ONECUT

Best
Quality

Ekicontrol coil processing line type ONCECUT is a cut-to-length line in a compact design with easy access to any part of the machine with maximum security for the operator. ONECUT is equipped with user-friendly integrated software. A unique feature is the ability to adapt the lines to each customer's needs, e.g. trapezium cutting lines, lines with flying shears and grinding-polish cutting lines, complete cutting lines including uncoilers, coil cars, strip straighteners, slitters, shears, stackers, tensioning presses and strip recoilers.

The machines are 100% European using only European components of the highest quality.

Material to process: Carbon Steel - Aluminium - Stainless

Standard:

- Entry guide
- Feeding rolls
- 7 straightening rolls
- Line encoder
- Cut-to-length shear

Type		ONECUT 20	ONECUT 30	ONECUT 40
Coil weight	ton	5 - 10 - 15	10 - 15	10 - 15
Coil width	mm	1050 - 1250 - 1500	1050 - 1250 - 1500	1500
Thickness	mm	0,5 - 2,5	0,6 - 3,0	0,8 - 4,0
Straightening rolls	pcs.	2 + 7	2 + 9 + 2	2 + 9 + 2
Speed	m/min.	0 - 20	0 - 30	0 - 40
