

Belt grinders type BGM & RPS

Best
Price

BGM 50

BGM 75

Accessories for belt grinders:

Drive wheel

Contact wheel

Motor

TONVR

Grinding belts

Dust bag

Dust extractor

Eye shield

The **BGM belt grinders** are efficient and powerful machines with a full size 3 kW motor. Enclosed grinding head, adjustable top work support, eye protection and TONVR starter are all standard. Belt speed of 34 m./sec. Quick change of belt and self-adjusting belt tensioner.

BGM 75 and BGM 150 can be delivered with an electronic motor brake. This means a reduction of the interruption time from 11 sec. to 3 sec.

The motor brake is efficient at both service stop, emergency stop and network drop-out. The machines are furthermore equipped with separate emergency stop.

Art. nr.	Type	Motor	Belt speed	Belt dimensions	Contact wheel	Grinding surface	L x W x H	Working height	Weight
		kW	m/sek.	mm	mm	mm	mm	mm	kg
18105	BGM 50	0,55	23	1000 x 50	150 x 50	300	520 x 400 x 500	Bænk	20
18000	BGM 75	3	34	2000 x 75	200 x 75	530	1000 x 580 x 1120	475-1240	115
