BPH compact 1503

The tough little machine for ducting and light cutting. A high rail machine ideal for HVAC ducting work and other light sheet work but built with extra strength and precision so it can be upgraded to high definition plasma cutting for material up to 40 mm.

Simple operation - The Baykal compact is fitted with a very simple control so that new or occasional users can be trained in minutes. Type BPH are offered with a range of programming tools from Lantek, the most complicated sheet-metal developments of ducting components hoods etc. can be produced in seconds and downloaded to the machine for immediate cutting or combined.

BPH featuring a fully machined gantry and base with linear bearings on both longitudinal rails this machine is built to work hard and long. Because of its unitary design there is no need for a complicated installation and if necessary the machine can be readily moved around the workshop to suit changing workloads.
